Election/Restrictions

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

2. In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-23, drawn to a process of modifying pectin by silencing polygalacturonase (PG) activity in a host cell having Pectin methylesterase (PME) [E.C. 3.1.1.11] and PG activities.

Group II, claim(s) 24-27, drawn to a PME modified pectin according to claim 1.

Group III, claim(s) 28-30, drawn to a transformed host cell according to claim 1..

3. The inventions listed as Groups I-III do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons:

Groups I and II have a special technical feature of PME modified pectin. However, the special technical feature is not a contribution over prior art. WO97/03574 A (6 February, 1997), cited in Applicants' Information disclosure Statement (IDS), discloses a PME modified pectin having the same (or obvious) features as the PME modified pectin of claims 24-27. Method steps recited in claim 1, are obvious variation of the disclosure in 'WO' patent. Similarly, EP-A-0271 988 (22 June 1988, see pages 2-5) or EP-A-0577 252 (5 January 1994, see pages 4-6), cited in Applicants' Information

disclosure Statement (IDS), discloses the broadly claimed subject matter of claims 28-30.

Thus the "special technical features" as defined in Rule 13.2 is not a contribution which each of the inventions, considered as a whole, makes over the prior art. Therefore, Unity of Invention is lacking.

4. A telephone call was made to B. J. Sadoff on May18, 2004 to request an oral election to the above restriction requirement, but did not result in an election being made.

5. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

6. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

7. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Tekchand Saidha whose telephone number is (571) 272 0940. The examiner can normally be reached on 8.30 am - 5.00 pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Ponnathapu Achutamurthy can be reached on (571) 272 0928. The fax
